In our ongoing communication with you during the COVID-19 pandemic, **The Brian Center Botetourt** continues to issue communication regarding the status of our residents and employees. On January 27, 2022, we received confirmation that one employee tested positive for COVID-19. The employee has been removed from work and will be self-quarantining. **Our team at The Brian Center Botetourt remain committed to the quality and safe care of our residents.** We will continue to provide updates as additional information becomes available.

The safety and wellbeing of our residents continues to be our top priority. We are doing everything we can to prevent the spread of COVID-19 within **The Brian Center Botetourt**, including staying in very close communication with local and state health officials to ensure we are taking all the appropriate steps under current circumstances.

We are taking steps based on guidance from the Centers for Disease Control and Prevention (CDC) and the Center for Medicare and Medicaid Services (CMS) to reduce the spread and impact of COVID-19, such as:

- Enhanced infection control precautions
- Screening residents, staff, and visitors for expanded list of symptoms
- Proactively testing staff and residents for COVID-19 based on current protocols
- Increasing PPE par levels
- And CDC/CMS recommendations

Due to government privacy requirements, we cannot divulge specific information about the individuals who have confirmed or suspected COVID-19, unless they are your family member, and you have the necessary permissions to receive such information. We will contact you directly if your loved one is suspected or diagnosed with COVID-19.
